

# A range of aftermarket accessories for Tow-Pro Elite and Tow-Pro Classic

REDARC has a comprehensive range of accessories for the Tow-Pro range of Electric Brake Controllers, designed to simplify installation of the unit into vehicles.

## Universal Wiring Kits (TPWKIT-XXX)

Provide 'Plug and Play' style connectivity, ensuring a quicker and more convenient installation of the Tow-Pro Elite.

Each kit includes hardware and fitting instructions to deliver a high quality and reliable outcome for every installation.

MANUFACTURER	PRODUCT CODE	VEHICLE
Wiring Kit to suit Ford Ranger and Everest	<b>TPWKIT-012</b>	Suitable for all Ford on-board systems
Universal Tow-Pro Wiring Kit	<b>TPWKIT-013</b>	Suitable for vehicles where the start battery, Tow-Pro main unit and cable run to the cabin are all in-line.
Universal Tow-Pro Extended Wiring Kit	<b>TPWKIT-014</b>	Suitable for vehicles where the start battery is on the other side of the vehicle from the installation.

## Tow-Pro Elite Mounting Kit (EBMK-001)

The Tow-Pro Elite Mounting Kit simplifies installation of the Tow-Pro Elite main unit under the dash of a vehicle.

It is designed to be fastened to the main unit with two M4 bolts at right angles, in-line or diagonally across the main unit.

It also features an M6 slot and nut/bolt allowing connection to the vehicle on a suitable M6 stud or M6 hole.

DESCRIPTION	PRODUCT CODE
Tow-Pro Elite Mounting Kit	<b>EBMK-001</b>

## Tow-Pro Remote Head Wiring Kits (RHWK-XXX)

The Remote Head Wiring Kits are a range of one to six metre cables that connect the remote head to the main unit. These automotive-style connectors increase the flexibility of the Tow-Pro Elite installation.

LENGTH	PRODUCT CODE
1 metre	<b>RHWK-001</b>
2 metres	<b>RHWK-002</b>
3 metres	<b>RHWK-003</b>
4 metres	<b>RHWK-004</b>
5 metres	<b>RHWK-005</b>
6 metres	<b>RHWK-006</b>

## Tow-Pro Elite Switch Inserts (TPSI-XXX)

**TPSI-001** **TPSI-002** **TPSI-003** **TPSI-005** **TPSI-006** **TPSI-007**  
**TPSI-008** **TPSI-009** **TPSI-010** **TPSI-011** **TPSI-012**

A Tow-Pro Elite Switch Insert aids in the installation of the remote head into vehicles. It allows the installer to create an OE-looking remote head mount whilst still maintaining ADR21 compliance (when correctly fitted). REDARC also offer Tow-Pro Switch Inserts in bulk packs of ten.

APPLICATION	SINGLE UNIT	BULK PACK (TEN)
Universal model	<b>TPSI-001</b>	<b>TPSI-001-B</b>
Suitable for Toyota Hilux, Mitsubishi Triton	<b>TPSI-002</b>	<b>TPSI-002-B</b>
Suitable for Holden Colorado	<b>TPSI-003</b>	<b>TPSI-003-B</b>
Suitable for Isuzu D-MAX SX	<b>TPSI-005</b>	<b>TPSI-005-B</b>
Suitable for Isuzu D-MAX LS/MU-X	<b>TPSI-006</b>	<b>TPSI-006-B</b>
Suitable for 70 Series Toyota,	<b>TPSI-007</b>	<b>TPSI-007-B</b>
Suitable for Nissan Pathfinder R52 (2013 -) and Mercedes-Benz X Class (2018 -)	<b>TPSI-008*</b>	<b>TPSI-008-B*</b>
Suitable for Mazda BT50	<b>TPSI-009*</b>	<b>TPSI-009-B*</b>
Universal RH Kit	<b>TPSI-010</b>	<b>TPSI-010-B</b>
Toyota 2019+	<b>TPSI-011</b>	<b>TPSI-011-B</b>
Remote housing replacement	<b>TPSI-012</b>	<b>TPSI-012-B</b>

\*Suitable for EBRH-ACCV3 installations only

## Encapsulated Protection Device (EPDK-001)

The Encapsulated Protection Device is a 7 amp diode suitable for 12 and 24 volt applications. It is totally encapsulated, with sealed connections and will work in ambient temperatures up to 85°C.

It has been designed to fit in the trailer stop lamp feed to support the installation of Tow-Pro brake controllers on vehicles where 'back-feed' of 12 volts (during Tow-Pro Manual Override) may interfere with the vehicle systems.

When installed correctly, the EPDK-001 ensures correct trailer braking and stop lamp operation when the brakes or Tow-Pro manual override is used.
